

SUPSERV

SERVICES PÉTROLIERS

COMPANY PROFILE

SARL SUP SERV

Headquarters

Adrar, Algeria

1. GENERAL PRESENTATION

SARL SUP SERV is an Algerian company specializing in engineering, the supply of industrial solutions, precision instrumentation, as well as the construction of energy distribution infrastructure (electricity and gas).

Strongly established in the Algerian South, the company has positioned itself as a trusted partner for major clients in the energy and hydrocarbon sector, notably through highly technical interventions on complex industrial sites.

2. OUR HSE STRATEGY

SUPSERV aims to be a benchmark company in HSE, Ethics, and Quality for "oil services" activities across all stages and phases. Likewise, our company also wants to guarantee HSE, ethics, quality, and the safety of personnel and installations, as well as environmental protection.

Our commitment is to satisfy customer requirements and comply with applicable legislation, regulations, codes, and standards. Our strategy, both in terms of Quality, Safety, and Environment, provides a framework for the development of our activities to ensure sustainability and future expansion.

Convinced that as an organization, effective risk management depends primarily on individual behavior and commitment, SUPSERV is developing a health, safety, and environmental culture based on information, training, feedback, and internal communication.

We have decided, on a voluntary basis, to collaborate continuously with all employees who possess significant experience in the field.

The improvement of the quality of our services, based on an integrated quality management system QMS ISO 9001 (the SUPSERV ISO 9001 project certificate will be launched soon), a mark of international recognition in terms of quality management, will be built around three pillars:

- Total satisfaction of our customers and stakeholders through continuous improvement.
- The commitment and involvement of everyone in the improvement, safety, and health protection of the personnel involved and the preservation of the environment.
- Implementing an approach to understand, apply, and monitor regulations under good working conditions.

3. ORGANIZATION & MANAGEMENT

Organization Charter

SUPSERV's organization charter is briefly composed of four (04) elements: mission, vision, ambition, and the seven (7) organization principles along with the company organizational chart.

A. Mission: SARL SUPSERV is a service provision and technical assistance company in the OIL & GAS field. Its main mission is to ensure quality services in compliance with current standards and legislation.

B. Vision: Our vision is to constantly improve the quality of our services in all aspects to be fast and reliable to better satisfy our clients, and consequently develop SUPSERV to increase the number of beneficiaries of this company.

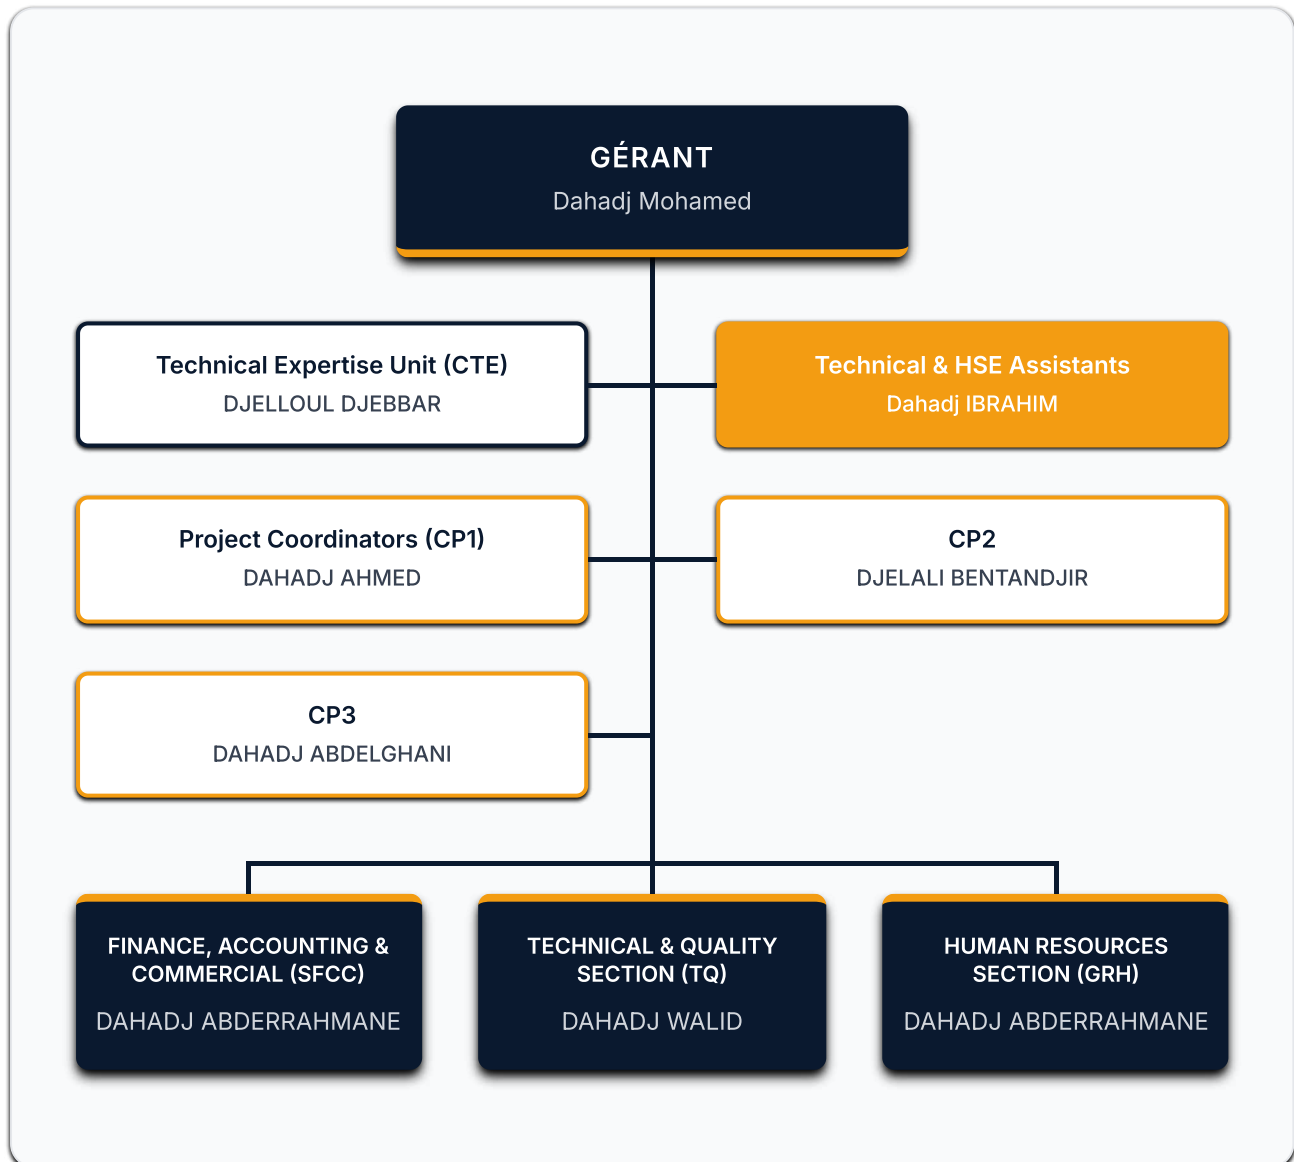

C. Ambition: SUPSERV has ambitions that combine strategic, financial, and economic dimensions with human, environmental, and societal values. Therefore, we commit through this charter to embrace these values and promote the following organizational principles:

D. Principles:

1. A clear organization, known to all, and rewarding missions, which allow everyone to understand how they contribute to collective success and value creation.
2. Appropriate regular communications, collective and individual, concerning the company's life, its performances, perspectives, and projects.
3. Interpersonal relations based on mutual respect and recognition, bringing motivation and progress.
4. Regular practices that promote inter-hierarchical dialogue, skill progression, career evolution, and consideration of personal projects.
5. An adequate monitoring and evaluation system, based on objectively verifiable performance indicators, is adapted for the different entities in order to propose actions and measures to overcome constraints.
6. Remuneration based on homogeneous and transparent principles, ensuring a fair redistribution of added value, and associating employees with the company's results and performance.
7. A proactive approach applied to health, safety, security, and environmental issues, preventing risk for employees and other stakeholders.

Company Organizational Chart

SUPSERV's organization is simple, based on the fundamental functions of Henri Fayol, namely: management (Manager, Dahadj Mohamed), supported by technical and HSE assistants, a technical expertise unit, project coordinators, as well as dedicated sections (Finance/Accounting/Commercial, Technical/Quality, and HR).

4. AREAS OF EXPERTISE AND SERVICES

SARL SUP SERV deploys its skills around several strategic axes:

Instrumentation, Metrology & Laboratory Equipment: Supply, installation, calibration, and commissioning of high-end measuring instruments certified ATEX (Explosive Environments Ex), specially designed for petroleum analysis.

Automation & Control Systems (DCS): Specialized interventions for corrective maintenance, diagnosis, and resolution of complex breakdowns on distributed control systems (DCS - notably Siemens brand).

Energy Networks & Infrastructure (Electricity and Gas): Engineering and construction works for transmission and distribution networks. This includes the installation of power lines, connection of MV/LV cabins, as well as the deployment of gas networks (PE).

Telecommunications & Fiber Optics: Deployment of telecommunications infrastructure, including customer connection works to the Fiber Optic network (FTTH).

Steel Construction & Welding: Manufacture, assembly, and supply of specialized metal equipment (structures, racks, platforms) for industrial sectors and oil drilling.

Industrial Supplies & HVAC Solutions: Procurement of specific technical equipment and air conditioning systems (HVAC / Split systems) adapted to the climatic constraints of the South.

5. WHY CHOOSE SARL SUP SERV?

- 1. Certifications and Approvals:** Holder of official operating authorizations issued by SADEG / Sonelgaz for carrying out Gas Distribution works (Type "C" Approval) and Electricity works (Type "D" Approval).
- 2. Compliance & Safety:** All our interventions and supplied materials scrupulously respect the strict requirements of the industrial and petroleum environment (ATEX/Ex standards, industry best practices).
- 3. Respect for Deadlines:** Rigorous project management that guarantees the delivery and commissioning of installations within the agreed contractual deadlines.
- 4. Local Roots & Mobility:** Proven expertise in managing logistical and climatic constraints specific to energy installations in the greater Algerian South.

6. OUR MAIN CLIENTS AND PARTNERS

The quality of our services has allowed us to collaborate with the largest national and international energy groups operating in Algeria:

SONATRACH

Upstream Activity - Production Division

Groupelement TouatGaz

Partnership between SONATRACH and GDF SUEZ E&P Touat B.V.

Groupelement Timimoun - GTIM

Consortium composed of SONATRACH, CEPSA, and TOTAL E&P Algérie

SADEG / Sonelgaz

Algerian Electricity and Gas Distribution Company

ALGÉRIE TÉLÉCOM

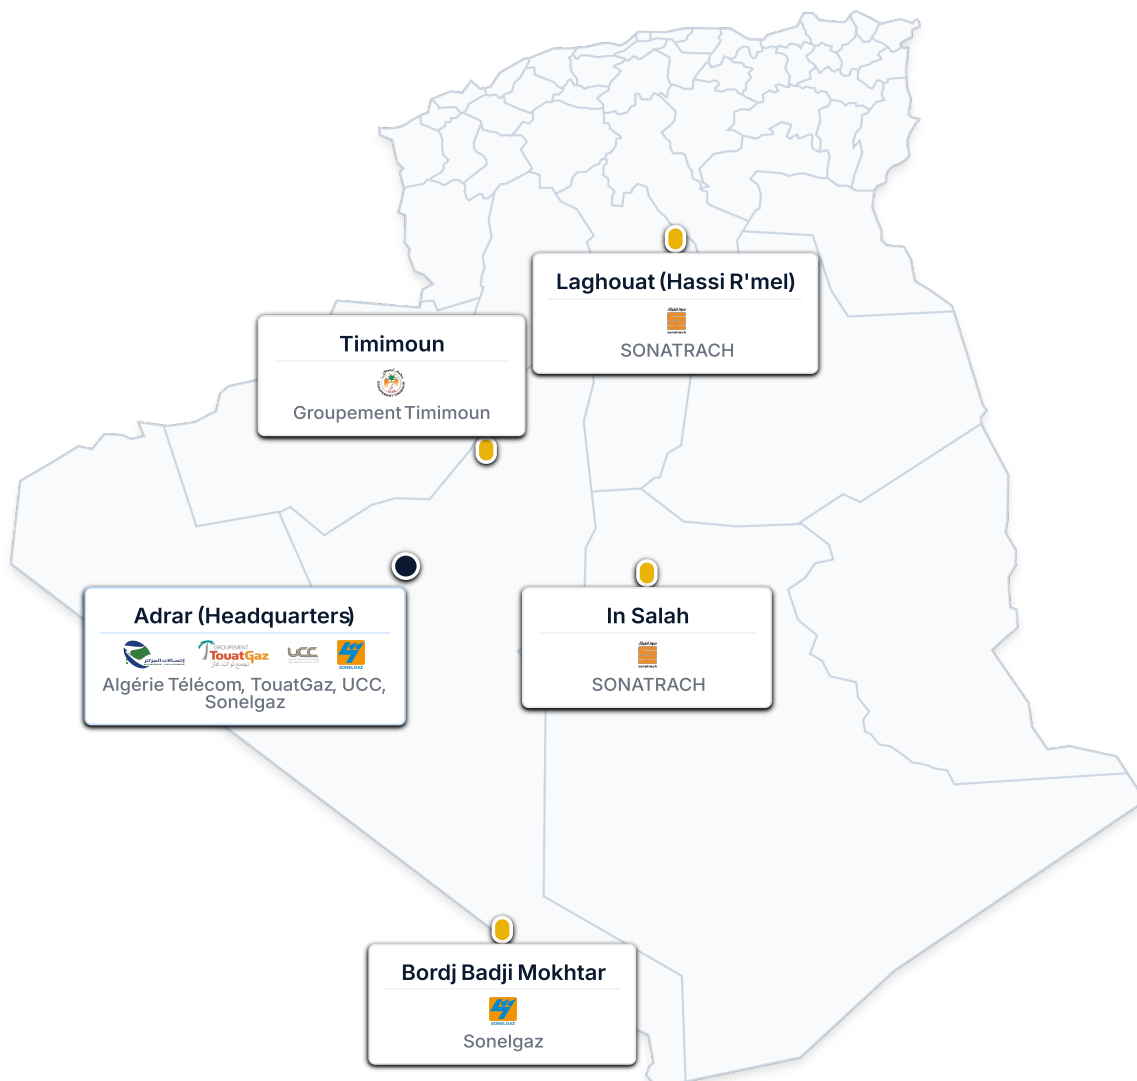

Operational Telecommunications Directorate of Adrar

UCC BALADNA

Qatari Dairy Project

MAPPING OF OUR CLIENTS

7. PROJECT REFERENCES & TRACK RECORD

5.1. Oil & Gas Sector (Hydrocarbons)

SONATRACH (Touat Exploitation Directorate - In Salah Unit)

Project: Emergency intervention on the DCS control system (SIEMENS brand) of the Tidikelt Gas Dehydration Unit in order to resolve the blockage of the automatic valve of the gas production well (DMS 4).

Additional Service: Complete on-site hands-on training for operations and maintenance personnel.

Groupement TouatGaz (Oued Zine, Wilaya of Adrar & Hassi R'mel)

Project 1: Supply, installation, calibration, and commissioning of four (04) "Portable Density Meter Kits DMA 35, V4 Ex, Petroleum" for the laboratory of the SP4 condensate unloading station in Hassi R'mel.

Project 2: Supply, installation, and commissioning of two (02) "Portable Density Meters DMA 35 Ex" intended for the CPF (Central Processing Facility) laboratory in Oued-Zine.

Project 3: Procurement and supply of equipment such as "Split system air conditioners" for the logistics base facilities.

Project 4: Supply of technical equipment such as "EUROFLEX POLYURETHANE Tube".

Groupement Timimoun (Barouda Industrial Zone, Timimoun)

Project: Supply of three (03) high-reliability vibration transmitters for the "Hot oil coolers" systems of the CPF (Equipment reference: CPF480-VT-75001A).

5.2. Infrastructure, Energy Networks & Agricultural Development Sector

Algerian Electricity and Gas Distribution Company (SADEG / Sonelgaz):

Work on Electrical Networks (Consolidated balance): Realization of electrical line extension projects including:

MTA + BTA Lines: 5,576 Km

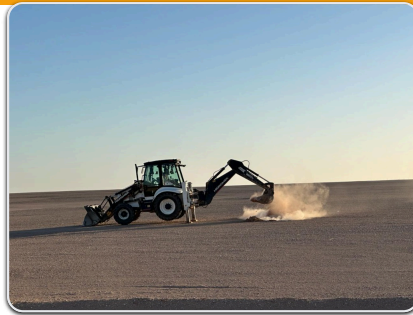

MTS + BTS Lines: 1,560 Km

Low Voltage Network (LV): 7,136 Km

Installation and connection of 03 HT/LT Substations/Cabins.

Creation of electrical substations to improve service quality.

Agricultural Development: Electrical Energy supply for multiple boreholes and vast agricultural perimeters in the South.

Work on Natural Gas Networks (2020 - 2021 Balance): Construction of gas distribution infrastructure totaling 11,068 Km of PE network and 688 individual logistical connections successfully completed:

Fiscal Year 2020: Installation of 3,495 Km of PE network and installation of 130 connections.

Fiscal Year 2021: Installation of 10,487 Km of PE network and installation of 558 connections.

Manufacturing of Specialized Tools: Design and manufacturing of original custom hydraulic equipment (35-ton jacks, 45-ton high-pressure clamps) designed specifically for interventions on Sonelgaz gas networks.

5.3. Telecommunications Sector

ALGÉRIE TÉLÉCOM :

Project: Customer connection works to the Fiber Optic network (FTTH - Fiber To The Home) in the wilaya of Adrar.

Intervention: Deployment and connection to the network.

5.4. Steel Construction & Welding Sector

URBACON TRADING AND CONTRACTING (UCC)

Project: Integrated Dairy Farming, Production and Arable Farming-Algeria (BALADNA Project).

Services (Manufacturing & Welding): Supply of specialized metal equipment for drilling wells:

Racks for Drill Collars and Drill Pipes

Pipe Slides and Platforms with stairs

Base Plates and Mud Mixers

8. FINANCIAL HIGHLIGHTS

SARL SUP SERV has demonstrated robust financial performance and resilience over recent years. Our continuous growth and ability to secure major strategic projects are clearly reflected in our annual revenue (Chiffre d'Affaires), underscoring our reliability and solid market position in the Algerian energy and industrial sectors.

Fiscal Year	Annual Revenue (DZD)
2021	102 393 118 DA
2022	49 323 243 DA
2023	36 526 933 DA
2024	133 365 263 DA

9. CORPORATE IDENTITY & CONTACT

Company Information

Company Name:	SARL SUP SERV
Legal Form:	Limited Liability Company (SARL)
Managing Director:	Mr. DAHADJ MOHAMED
Commercial Register (RC):	N° 01/00 - 0883062 B19
Tax Identification Number (NIF):	001901088306288

Headquarters Address

 **N° 19, Cité 67 Logements, Adrar, 01000**

Wilaya d'Adrar, Algérie
